

OKLAHOMA IS HIT BY DISASTROUS FLOODS

MANY RIVERS OUT OF BANKS TAKING ALL IN THEIR WAY

Bridges, Houses and Other Property Being Swept Away—Municipal Dam Near Oklahoma City Burst—Thousands Fleeing—Loss Will be Great—Population Frenzied

(By the Associated Press)
OKLAHOMA CITY, Okla., Oct. 15.—Western, central and southern Oklahoma tonight was in the grip of the most disastrous flood ever recorded in the state. Rivers and streams swollen by rains that have fallen virtually without intermission since Friday morning, were sweeping southeastward, carrying on their foaming crests bridges, houses and other property that had been caught in the unprecedented sweep of their muddy current.
The North and South Canadian rivers, the Cimarron, the Washita, the North Fork of the Red River—all are spreading destruction that is estimated already in the millions of dollars.
The west bank of the municipal dam, 10 miles west of here, housing the city's reserve water supply, gave way under the relentless pressure of the swollen North Canadian river late tonight, releasing a raging, seven foot deep torrent to augment the already disastrous overflow of the stream.

Roy H. Johnson, Clinton; Rev. O. F. Jordan, Evanston; J. Marshall Miller, Jacksonville; W. A. Murphy, East St. Louis; A. G. Nauman, Chicago, and Dr. C. A. Young, South Chicago.

They are, Mrs. Elizabeth Ginter, Joliet; Mrs. Luella McCool, Springfield; and Mrs. Gladys Neal, Willow Hill.
Memorial services for the dead of the orders and exhumation of the Patriarchal Degree by the Grand Encampment occupied the attention of the delegates at today's sessions.

JOY AND GLOOM SHOW IN FACES OF BALL TEAMS

Yankees Filled with Joy While Giants are Glum

(By the Associated Press)
NEW YORK, Oct. 15.—The final incident in the great drama comes, the players leave the green carpeted stage as the crowd shouts, the curtain falls. But this is not the end. Behind the scenes in the dressing rooms the repressed emotions of the players, victorious and vanquished, burst forth. This is the human side, the real drama.
In the dressing room of the victorious Yankees is Miller Huggins, that bit of a man, the manager, is doing a jig with Old Man Dugan, proud parent of "Jumping Joseph," patting time with hands and feet. There is Babe Ruth, who struck out at the most dramatic moment of his career, being joshed and prodded in the ribs, then pushed over a bench all the time laughing as if his ponderous sides would split.
Aaron Ward yells like a Cooche with seven scalps at his belt; Sad Sam Jones is no longer sad, he's singing Hallelujahs at the top of his voice; Bob Meusel, who made the hit that won the series, is being hugged and kissed by no other than little Eddie Bennett, the mascot, whose cheeks are wet with tears of joy. There is more singing.
Wally Schang kicks off his spiked shoe and it flies clean thru the window pane. Then the rooms of the Giants.

In Giant Quarters
A different scene. No singing, no loud talking, no hurry to get dressed. In a far corner sits little Arthur Nehf, the pitcher, his head in his hands, sobbing. About him gathered his teammates telling him not to mind that he cracked at that moment in the eighth inning when the game seemed won.
"I could not help it," he sobbed. "It had been a strain all thru those innings when they failed to hit me. In the eighth, then, after Ward was out and Schang hit, my arm would not go on. I tried—I thought they would curve for me. I thought when the ball left my hand each time that it was too fast, too bewildering for them to hit. I thought they were going squarely over the plate. Yet each time the ball left the hand at a certain time, the arm stopped at a certain place; my arm seemed hypnotized. I'd rather they would have hit than to have walked. I don't recall a time when I could not groove them when I have to."

McGraw Is Quiet
John McGraw, the thinker, who had visualized an even series and victory in a seventh game tomorrow just before that eighth inning had little to say.
"Nehf," he said, "is one of the finest, gamest and most able pitchers the game has known. It was not his fault that he faltered there. He could not help it. The Yankees played great ball this year. They have won a great victory."
Then McGraw goes out. At the foot of the steps, he meets Miller Huggins. He shakes hands.
"It was great sport, John," says Huggins, quietly. "Your men played the game fairly and squarely and I want to say I never enjoyed fighting so much as I have against them and you. We knew every moment, in our game, that we had to fight for every advantage. May we meet again next year."
"Thanks, Hug, you're a fine sport," and they go back to the dressing room.

D. LLOYD GEORGE MAKE FIRST SPEECH IN THIS COUNTRY

(By the Associated Press)
MINNEAPOLIS, Minn., Oct. 15.—An appeal for the United States to help Europe make peace was made here today by David Lloyd George, the war time prime minister of Great Britain in his first public address in this country after concluding his tour of Canada.
Speaking before many hundred persons at a luncheon given by the Minneapolis Civic and Commerce association the former premier said:
"I am not here on any mission, but let me say to you one thing, that until the United States of America with its mighty influence, with its great power, with the moral command which it has in the world because of its past with the great claim that you won by coming into the war without any selfish purpose but for a holy ideal, sending millions of your best young men across to fight for liberty and for nothing else—until this great land casts its influence into the scale of peace, I despair of the future."
Should Not Forget
Referring to a statement that Americans were doing their best to forget the recent world war, he urged that they do not forget. "There is nothing," he said, "for you to forget—nothing. There is something, yes, something for you to be proud of. You came for naught but at the call of a great purpose and a great ideal. It ought to be your pride. The part you took in it is one which is worthy of your greatest traditions. And my last word is—"

(By the Associated Press)
INDIANAPOLIS, Ind., Oct. 15.—Charges that Governor McCray forged a note for \$2,500 signed A. Messerman and Co., and made out to himself and had "used a large amount of money of the state of Indiana and of the Discount and Deposit Bank of Kentland, Ind.," are embodied in a suit filed in circuit court here today by the Brownstown, Ind., Loan and Trust company, against the Meyer Kizer Bank or this city. The note, which it is charged, was sold by the Meyer Kizer Bank to the Brownstown Bank was given as collateral for another \$2,500 note signed by McCray, made payable to McCray and endorsed by McCray. The complaint charged the note was "fictitious and forged" and that the governor was without authority to sign the name of A. Messerman and Co. to it.

The complaint alleges that the Meyer Kizer Bank had represented that McCray was solvent, that the Messerman note was valid and that it had investigated his condition. The complaint asserts that the Meyer Kizer Bank nevertheless knew that McCray was insolvent, and that at the time of making said representation, knew that Warren T. McCray had used "a large amount of money of the state of Indiana and of the Discount and Deposit Bank of Kentland, Ind., that he was unable to meet his obligations then due and that he was not in good financial condition."

HAS NECESSARY AUTHORITY

The secretary of labor said in part:

COMMITTEE ON WATERWAYS IS SECURING DATA

Chicago Shows What Must be Taken from Lake Michigan

(By the Associated Press)
CHICAGO, Oct. 15.—The Chicago Sanitary district trustees today told the special senate committee holding hearings on the McCormick bill that would authorize improvements of certain waterways, that Chicago must withdraw from Lake Michigan 10,000 cubic feet of water every second.

After making their case plain before the committee they took the senate members on an automobile ride and gave them visible evidence of where this 10,000 cubic feet a second was being used. The trip this afternoon was to the sanitary district plants in the South Side of Chicago and included the big sewage disposal outfit. Here sewage is received and the water used in its disposal is turned back clarified into the Desplaines River, which in turn empties into the Illinois River and has a considerable effect in raising that river to a navigable stage according to the sanitary trustees.

A motorist can now start from the zero milestone in Washington and travel a circle tour of 2,350 miles back to Washington again over a continuous dustless paved highway. That this can be done is very definite evidence to the American Automobile association officials that substantial progress is being made in the development of a national system of highways.

This continuous section would take the motorist from Washington to St. Louis, a distance of 819 miles thence through Springfield, Ill., Chicago, Detroit, Cleveland, Buffalo, Montreal, Albany, Boston, New York, Philadelphia and Baltimore. It would be unnecessary to retrace a single section of road. Between some of the cities alternate routes over equally as good road would be offered.

This is but one of many numerous long stretches of paved highway, points out the A. A. A. Touring and Transportation board. The highway from Vancouver, B. C., to San Diego covering a distance of over 1,700 miles is another example. This road as a continuous paved road is to be dedicated in the near future. Each year constantly increasing mileage of continuous paved highway is added to the national highway system of the country, as the various states fill in gaps on trunk line highways.

Among the eastern seaboard states, North Carolina is leading the way for her sister states. The barrier between the northern and southern travel through the central tier of states has been the mountain ranges in

Kentucky and Tennessee. Both of these states have spent millions on the removal of these barriers. In both states definite proposals of the insurance of \$50,000,000 to \$75,000,000 in state bonds are being considered. This will give these states ample funds to complete the work under way and provide the same facilities of easy travel as between the north and south as now exist in the north between the eastern and central states.

Through the enterprise of such organizations as the Lincoln Highway association marked progress is being made in extending the paved road from the point where it leaves off on its way westward in the central states across the middle and far west to the Pacific coast. At the present rate of progress, it will be only a few years until the motorist can leave New York in his car and drive to San Francisco or Los Angeles over one of several paved transcontinental highways.

It is gratifying to the A. A. A. that in building continuous stretches of paved highway, the states are at the same time providing a definite local service in the main market roads between cities and towns and villages as the local travel on most of the mileage of through highways greatly exceeds the through travel.

A. F. B. STUDIES ILLINOIS SALES OF THE FARM PRODUCTS

Illinois last year sold 470 million dollars worth of products from 237,181 farms, or \$2,066 per farm. In 1919 it was 771 millions or \$3,250 per farm.

In the crop year just past 38 per cent of the cash income was derived from sales of crops, 35 per cent from livestock, and 27 per cent from animal products.

The leading items were: Hogs sold, \$89,000,000; dairy products, \$85,000,000; corn, \$71,000,000; cattle, \$55,000,000; wheat \$47,000,000; poultry and eggs, \$37,500,000; oats, \$24,000,000.

Corn and oats brought 34 per cent of the total cash receipts; cattle 12 per cent; dairy products, 18 per cent; poultry, 8 per cent.

At the present time income from sales in Illinois is 123 per cent of the 1919 receipts; for the U. S. it is 157 per cent.

Illinois farm sales decreased 50 per cent from 1919 to 1921.

The increase in wheat growing was made largely at the expense of corn. Wheat in 1919 furnished but 8 per cent of the farm income and corn 22 per cent. In 1919 wheat had risen to 17 per cent and corn had declined to 18 per cent. Wheat sales supply but 10 per cent of last year's sales.

Hogs have gained substantially in relative importance since 1920. Prospects for the new crop year, 1923, are rather better in Illinois than for the country as a whole. Crops are large—especially corn and oats—as compared to last year and general price tendencies for these grains have been upward. The income from the large cattle and hog feeding and dairy industries promise to be at least no less than last year.

These items are taken from the American Farm Bureau department of research.

ANOTHER BILLION FOR PUBLIC EDUCATION

Just previous to the inauguration of the present school year, secular press dispatches out of Washington, D. C., imparted a piece of information which the American people may ponder. The statement carried the authorization of Dr. Frank M. Phillips, chief of the Division of Statistics of the Department of the Interior, and concerned present housing conditions of the public school population.

Dr. Phillips very emphatically declared these conditions are deplorable from the viewpoint of adequate accommodations. And he illustrated his contention by some rather startling figures. "If we make a conservative estimate," he said, "of an immediate need of housing to accommodate 2,000,000 public school children, it would mean the necessity of erecting 50,000 new classrooms, at an estimated cost of \$600,000,000."

A moment's thought will convince anyone of the enormous financial burden which would be laid on the people were this need to be met at once. That is not likely, of course. Yet if the public system of education is to carry on with common physical benefits, the immediate need ought to be supplied as promptly as possible.

That, however, is but one view of the situation. There is another. It is of equal importance and has a direct relation to conditions given by Dr. Phillips' statistics. Moreover, it is of timely consideration, as it touches a movement which would abolish private and parish schools.

In the latter schools conducted under Catholic auspices there are today more than 1,000,000 pupils. If this movement were to succeed according to Dr. Phillips, it would mean the need of 25,000 new classrooms at an estimated cost of another \$300,000,000. Thus the immediate housing necessities for our public school population would amount to 3,000,000 children, 75,000 new classrooms and \$900,000,000.

FARM BUREAU NOTES
White Diarrhea is Serious Menace to Illinois Poultry.

That white diarrhea is by far the most serious disease among baby chicks in Illinois and causes an estimated loss of over a million dollars a year to the Illinois poultry industry was one of the important facts brought out at the state conference of poultry breeders and hatchery men at Springfield, October 10. Information concerning this conference has been received by the farm adviser.

The disease can be detected by a blood test, according to authorities of the University of Illinois, and a plan was decided upon by the poultrymen to have flocks tested for the disease and to place disease-free flocks on a state accredited plan, similar to accredited herds of cattle free from tuberculosis. Supervision of this work will be under Dr. F. A. Laird, state veterinarian.

Another important step toward improving quality and building up a reputation for Illinois poultry products was a plan of inspection and certification decided upon at the meeting. The Division of Standardization and Inspection of the Illinois Department of Agriculture will inspect farm poultry flocks for purity of breed, production qualities and disease. There will be a further inspection service for hatcheries which will use eggs from inspected farm flocks only. Hatcheries passing the required standard will be placed on an accredited list.

A committee composed of representatives of poultry breeders, hatchery owners, University of Illinois, Illinois Agricultural Association, State Department of Agriculture, and Illinois Poultry Breeders' Association will be appointed to make complete plans for this new step.

Miss Irma Lakin and Otis Harp were married in this city Monday morning at 11:30 o'clock, the ceremony being performed by Dr. F. M. Rule at his home, 335 West State street. The ring ceremony was used.

The ceremony was witnessed by Mrs. F. C. Lakin, mother of the bride, and Mrs. G. N. Lucas, aunt of the groom, with whom he has made his home for a number of years past.

The bride is a daughter of Mr. and Mrs. F. C. Lakin and thus belongs to one of the prominent families of Manchester. She graduated from the Manchester high school and subsequently taught one year in the public schools of her home community.

IF YOU NEED A MEDICINE YOU SHOULD HAVE THE BEST
Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like and endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in over-coming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

OKLAHOMA IS HIT BY
DISASTROUS FLOODS

(Continued from Page One)
of life had been received here tonight. At Canton on the North Canadian three men were rescued today from tree tops in the midst of a swirling sea that stretched nearly a mile on either side of their refuge.

Reports from Canton indicated that the river, burdened with its unprecedented volume of water had straightened its course, sweeping thru farm lands heretofore considered immune from flood damage and destroying many farm houses and outbuildings.

Arkansas Danger
Fort Smith, Ark., Oct. 15.—With the Arkansas river rising at the rate of one foot every four

hours, local weather bureau officials tonight predicted the flood stage would be exceeded by three feet some time Tuesday afternoon. Tonight the stage reached 20 feet, about three feet below flood.

Thousands of acres of farm lands in Oklahoma are being threatened with inundation, the bureau officials said and warnings have been sent thruout the danger zone.

Tulsa, Okla., Oct. 15.—Flood by excessively heavy rains along its entire water shed above here the Arkansas river again is rushing on Tulsa with fast rising waters that this week are expected to reach the disastrous height recorded last June when all high water marks were broken.

Dallas Texas, Oct. 15.—Heavy rains which fell in many parts of north, east, central and west Texas Saturday and Sunday continued almost without cessation today and flooded conditions were reported this evening in many sections, especially the Pan-Handle, with heavy damage to highways and railroads. Traffic has been delayed because of washouts and trains derailed in many places. No loss of life is reported. Damage sustained by railroads, highways, oil concerns and corporations in north central Texas is estimated at several hundred thousand dollars.

Wichita Falls, Texas, Oct. 15.—A number of large consumers of gas in this city were cut off to night from the remaining supply which has been cut 70 per cent since early this morning when four gas lines near Byers belonging to the Lone Star Gas company and bringing gas to Texas from the vast Oklahoma field were washed away by the sudden rise of the Red river.

PRESIDENT LOOKED
TO BY NATION FOR
LAW ENFORCEMENT

Statement Made at Meeting
Discussing the 18th
Amendment

(By the Associated Press)
WASHINGTON, Oct. 15.—The nation looks to President Coolidge to assert and maintain the majesty of the law, the citizenship conference declared in a message to the American people, approved at the closing sessions of ways and means of increasing respect for the eighteenth amendment and the prohibition act.

"We look with confidence to the president," the message said. "We assure him our support in using every power at his command to compel respect for constituted authority."

The conference had a busy final day, with sessions morning, afternoon and night and a visit of the delegates to the white house at the noon hour. President Coolidge received them in his office and shook hands with each. The officials of the conference, Mr. Coolidge expressed his interest in the proceedings and said that what had been done at this conference would be of use in the conference of governors which he has called for next Saturday for a consideration of cooperation between federal and state authorities in the enforcement of the prohibition, immigration, narcotic and other laws.

Tonight he had as his dinner guest Fred B. Smith, of New York, chairman of the executive committee of the conference.

SYSTEM OF EDUCATION
IS HIT BY PROFESSOR

(By the Associated Press)
CHICAGO, Oct. 15.—Educated children should be the aim of an educational system, not human encyclopedias, Dr. David Kinley, president of the University of Illinois declared today before the Illinois Council of Parent Teachers association.

Assimilation of too many subjects without an accompanying philosophy of living—the knowledge of too many unrelated facts and the ignorance of the essentials of Americanism—does not constitute education, he said.

He urged the return of the old fashioned home training which flourished a half century ago and "for which no substitute has ever or will be found."

HIGH PRICES CAUSE
ADDED FOOD RAIDS

BERLIN, Oct. 15.—(By the A. P.)—The raiding of food shops, particularly bakeries has been reported today from various parts of Berlin. Demonstrations against high prices during the day took place in the city occupied by workers smashed the windows of bakeries, and policemen who endeavored to protect property were disarmed before reinforcements could be brought up. There were several clashes between police and demonstrators in these sections. In the Schoenenburg district 5,000 demonstrators, mostly unemployed men, reinforced by women with market baskets repeated the performance of Saturday morning for the Rathaus and making demands upon the authorities for increased doles. The police reserves with fixed bayonets drove the demonstrators away.

The leaders of the mob announced that they would repeat the demonstration tomorrow.

GERMANS ESTABLISH
GOLD ANNUITY BANK

(By the Associated Press)
BERLIN, Oct. 15.—The cabinet tonight approved a bill granting a charter for a so-called gold annuity bank, whose capital will be furnished by industry, agriculture, banking and commerce thru compulsory hypothecation of their realty and other holdings.

On the basis of such material values the bank will be empowered to issue interest-bearing obligations or annuities computed in new currency, which is specified as "renten" or annuity mark, which will rank as legal tender.

The present bill specifies that the newly founded bank is to place 1,200,000,000 new gold marks at the government's disposal in return for which the reichsbank will cease to discount the government's treasury bills, thus placing it on a position to accomplish an immediate curtailment of inflation.

The current paper mark will continue as official legal tender, the present bill merely providing an intermediary solution to the impending scene of general currency reform.

YANKS and LEGIONAIRES

Forceful Facts Concerning the Interests of Former Soldiers Sailors and Marines

The Battle of the Marne was fought nine years ago. Officers of the United States army and navy go on the retired list at the age of 64.

There are 13,000 veterans living in the various National Soldier's Homes in the United States.

A home for disabled women veterans of the World War is to be established at Danville, Ohio. The United States has 1718 graves of unknown soldiers in France, 66 in England and 29 in Belgium.

American Education Week will be observed the week of November 12 under the auspices of the American Legion.

Raisins are to be part of the rations of the United States army. Among the other staple foods are beef, rice and cornmeal.

The Federal Government is now paying \$5.78 per day for each wounded World War patient taking general hospital treatment.

The Congressional Medal of Honor was awarded to 90 officers and enlisted men of the United States army and Marine Corps during the World War.

Mrs. Patrick Burns, of Waukegan, is the foremost "gold star mother of Wisconsin." She has two sons killed in battle and one son wounded while at the front.

To give them supernatural energy as the charged the trenches, German troops in the World War were given sodium phosphate to drink.

The Department of the Interior is opening more than 111,000 acres of public lands in California, Nevada, New Mexico and Utah to former service men of the World War.

Major Paul Perrignon de Treves, a quartermaster in the French army, is taking a nine-months' training course in the U. S. Quartermaster's School in Philadelphia, Pa. He is a first foreigner ever enrolled in the school.

It is estimated that there are approximately 4000 Catholic soldiers buried in the permanent American cemeteries abroad. These represent 12 percent of the American soldier dead in the World War.

Among the new recruits of the United States army is Alexander Tchouvaldi. He was born in Russia and was a wealthy officer in the Czar's army. Tchouvaldi speaks eight languages. During the World War he was wounded twice.

Exact figures of France's mutilated soldiers of the World War are not known, for they vary continually, death claiming many men unable to survive the terrible wounds received in battle. It is estimated that on an average, 30 of these veterans die each month.

The United States army has the largest demolition bomb in the world. It weighs 4500 lbs., complete with nose and tail fuses loaded with 2000 pounds of T. N. T. and is 13 feet 6 inches long. This bomb is to be used in a large Handley-Page bombing plane.

The Veterans of Foreign Wars are in favor of a movement for a Franklin Memorial in Washington, O. C. It is their desire to have the body of Benjamin Franklin removed from Philadelphia, Pa., to the Capital and represent the basis of this national shrine.

The new navy dirigible ZR-1 recently paid tribute at the grave of the Unknown Soldier in Arlington and at the tomb of George Washington at Mt. Vernon. Over the grave of the unknown Soldier all the motors were stopped and flowers were dropped.

Grant, Sherman, Sheridan and Pershing are the only four American soldiers who have risen to the full rank of general. Tasker H. Bliss and Peyton C. March held that rank for the duration of the late war. In time of peace the grades of general and lieutenant general often are allowed to lapse.

Former soldiers of Kansas who went "A. W. O. L." while they were in service are not to receive the dollar a day bonus paid by the state for the days they were gone without leave. The service record and the discharges of the men show the number of days each was A. W. O. L., "seeing the sights" of Paris or "just visiting around."

The United States has had a different flag for every war. The flag of the Revolution had 13 stars in a circular blue field and seven red and six white stripes. During the war of 1812, the flag had 15 stars and 15 stripes. At the time of the Mexican war, the flag had 13 stripes and 29 stars. When the civil war broke out, the flag was the same except that it had 34 stars. Before the civil war ended two more stars were added. The Spanish-American war flag had 45 stars. The flag used in the World War had 48.

TAXATION BLAMED FOR HIGHER FARES

ATLANTIC CITY, (AP). Municipal, state and federal officials were vigorously assailed for their extravagance in a special tax report made today to the American Electric Railway Convention here.

William H. Maltbie, of Baltimore, is chairman of the committee making it.

The report declared that owing to governmental extravagance in part, every workingman in the United States is paying an average tax of \$4 a year which is hidden in his car fare. This is about two-thirds of a cent out of every fare.

"One of the most serious problems of the day is that of municipal, state and federal extravagance," the report said. The check upon public extravagance is to be found only in a demand on the part of the public for economy, and one of the first and most important steps in the development of this demand is the elimination of indirect taxation. Approximately 10 percent of the gross receipts of the street car companies of the United States is devoted to some form of public burden. The average fare at the present time is 6.92 cents so an average of nearly two-thirds of a cent out of every street car fare collected in the United States is an indirect tax upon the street car users for the benefit of the general public.

"The average workman riding to and from his work 300 days in the year pays in this one item an indirect tax of approximately \$4."

"If this indirect tax and other numerous indirect taxes which he pays could be bundled together with the relatively small direct tax which he is called upon to meet, labelled, and known to him as a tax, we would find a pressure for public economy making itself evident at the polls in unmistakable fashion."

Among the "obsolete" taxes pointed out by the committee is one for paving between car tracks which had its inception in horse car days when the animals hoofs destroyed cedar block pavements between the rails.

Car riders do not realize, the report declared, that state and federal bodies which fix the car fares of the country, figure all of these taxes in when arriving at a fair fare.

SAGHALIEN RICH IN OIL
Tokio. (By the A. P.)—Professor Iki, of Toyo university, has just returned from a year's sojourn in North Saghalien, among the fish-eating natives. He describes the habits of these people, but more interesting in his statement a bout oil. He says petroleum is oozing out of the ground all over the northern part of the island, and that oil pools of great size are found everywhere.

Miss Ruth Whipp of Springfield spent the week-end at the home of Mr. and Mrs. W. J. Olroyd.

MEETING OF CLUB WOMEN IN WINCHESTER

Interesting Program Carried Off Monday Afternoon at High School Auditorium—Other Winchester Items

Winchester, Oct. 15.—The Winchester Woman's club held a meeting in the auditorium of the community high school Monday afternoon. This was known as "Scott County Club Day," and an invitation had been extended to all the clubs of the county to the guests of the Winchester club on this occasion. However, the bad road conditions made it impossible for most of the clubs to be represented. Twelve ladies were present from Manchester and Miss Louise Pearce of that town gave an interesting book review of "The Soul of Ann Rutledge."

A committee was appointed to make arrangements for the formation of a county organization. This committee includes two ladies from Bluffs and two from Winchester. Miss Belle Vannier of Bluffs was to have presented a paper but was unable to be present. The program committee included Mrs. Cal Simmons, chairman; Mrs. Russell Redshaw, Mrs. Charles Young, Mrs. M. A. Henderson, Mrs. Jesse Overton and Mrs. George C. Smith.

Following the program, which was of a very interesting kind, refreshments of various kinds of sandwiches and coffee were served.

News Notes

Mrs. D. R. Brown left Saturday for St. Louis to make her home with her daughter.

Mr. and Mrs. Melvin Murray entertained a number of school children at their country home west of town Saturday evening, in honor of the birthday of their

son George. Games of various kinds were enjoyed and refreshments of an attractive kind were served. The young host received a number of very acceptable gifts.

There were no services in the Methodist church Sunday evening as the work of redecorating the auditorium is now in progress. New lighting fixtures are also being installed in the church.

The first number of the Lyceum course will be given in the auditorium of the community high school next Thursday evening, when the Imperial Male Quartet of Chicago will be the attraction. This aggregation comes highly recommended and should be heard by a large company.

Guy Clark and little son returned Sunday to their home in Galesburg after a visit with friends here.

A number of the school friends of Lucy Coe planned a pleasant surprise for her Monday evening at the home of her parents on South Main street. The evening was spent with games and contests and proved very pleasant for all present. The young hostess was the recipient of a number of very nice gifts. Dainty refreshments were served during the evening.

ODD FELLOWS TO THROW SPRINGFIELD

Thousands Will Attend Sessions of Grand Bodies This Week—Jacksonville Lodges Sending Floats for Wednesday Parade

Thousands of Odd Fellows will throw Springfield this week as the five branches of the order hold their annual session.

The session of the grand encampment branch opened at 2 o'clock Monday afternoon in the senate chamber of the state house. The grand encampment session will close Tuesday afternoon.

The other four branches, the grand lodge, the Rebekah state assembly, the Patriarchs Militant, and the ladies' auxiliary of the Patriarchs Militant, will meet from Tuesday to Thursday inclusive. With the inclusion of the two military branches the sessions will be the largest in the history of the state division of the order, some say in the history of the I. O. O. F. This fall will be the first time that the military orders have combined with the other branches.

Wednesday afternoon the great parade will be the feature, with thousands of delegates in line and a vast number of floats, provided by the subordinate lodges throughout the state.

Members of Jacksonville lodges have been busy with the plans for weeks past and their floats will be worthy of the order. David Shadid is chairman of the float committee of Illini No. 4. The attendance on parade day is expected to be the largest of the week, as many Odd Fellows who do not expect to attend lodge sessions will go to Springfield for this pageant feature.

Among the official representatives of the local I. O. O. F. bodies will be J. Marshall Miller for Illini No. 4; C. J. Roberts for Ureania, No. 243; Mrs. Mary Olds, Rebekah Lodge No. 13; and Mrs. Lydia Crabtree for Caritas Lodge No. 625. Carl H. Weber and Judge W. E. Thomson are directly associated with the grand lodge and will also be present. John Peterson will serve as assistant marshal and the list given does not include all the representatives of the various local bodies.

As indicated, Odd Fellows and Rebekahs in large numbers are expected to drive from Morgan county to Springfield on Wednesday.

STATE C. OF C. WILL OPEN SESSIONS TODAY

Important Themes Will Be Discussed at Meet to Be Held in Chicago—Local Chamber Represented

The Illinois chamber of commerce will begin sessions in Chicago today and the indications point to a large attendance. Mayor E. E. Crabb, Judge H. P. Samuel and Secretary Harold Welch of the chamber of commerce, left last night for Chicago and other representatives of the local organization will leave today.

The program this year promises to be of more than usual interest and subjects of nation wide importance will be presented and discussed. Among the speakers will be C. H. Markham, president of the Illinois Central railroad, who will make an address on "Effects of the Railroad Situation." Ralph B. Heilman, dean of the School of Commerce of Northwestern University will speak on "Where Is Government Regulation Leading Us?" Another speaker will be James R. Howard, former president of the American farm bureau federation, who will discuss transportation from the farmers' viewpoint.

Another important part of the program will be the waterways discussion, at which the U. S. Senatorial Waterway committee will be present. This committee comprises Senators Medill McCormick of Illinois, Smith W. Brookhart of Iowa, Kenneth McKellar of Tennessee, E. W. Broussard of Louisiana, and David A. Reed of Pennsylvania. The convention will be held at the Morrison hotel.

STATE K. P. OFFICES

MOVED TO SPRINGFIELD

Headquarters of the Knights of Pythias grand lodge, Illinois' dam will be established in Springfield in the building at 620 South Sixth street during the next two months, County Recorder W. T. Fossett, grand trustee of the order recently announced. Formal transfer of the property from Mr. and Mrs. George Morton to the fraternal organization for a consideration of \$18,000 was made and the deed placed on record.

Mr. Fossett, Eugene Coddington of East St. Louis, and Arthur James of Chicago, members of the board of trustees, and Al Douglas of Chicago, great keeper of records and seals, who attended a meeting in Springfield inspected the building and decided upon repairs that will cost approximately \$1,500. These will be made immediately. Reports from Chicago state that the lease on offices of the lodge in that city will be disposed of within thirty days and the removal to Springfield will then be effected.

DR. NORBURY TO TEST YOUTHFUL MURDERER

Well Known Alienist Will Aid Attorneys Who are Defending Ivan Wooten of Auburn—Lad is Without Funds.

Ivan Wooten, the youth who killed his foster mother, Mrs. Mary Seales, at Auburn a few months ago, is now under observation of Dr. F. P. Norbury, who seeks to find whether or not the lad has normal mentality. Wooten is sixteen years old and it is said that his family shows insanity. His mother, and uncle, together with other relatives, were subject to forms of mental weakness, one of the attorneys engaged to defend the youth said.

After Wooten had killed Mrs. Seales, a woman who had been very kind to him, he told authorities that a tramp had killed her when she refused him food. However, the youth was suspected of the crime and subsequently made a complete confession. At a special session of the grand jury he was indicted and a plea of guilty was expected. But attorneys were appointed by the court to defend him and the sanitary inquiry is to be made as a part of the defense program.

Dr. Norbury will make an exhaustive examination of the lad. Neither he nor the attorneys for the defense will be paid, as young Wooten has no funds.

ARTISTS COURSE BEGINS AT WOMAN'S COLLEGE

Great Concert Program Given By Eminent Pianist Jan Chlapusko.

The artists' course which has been sponsored for the past several years by the Illinois Woman's college, has become one of the local events that is keenly anticipated. Not alone does the student body at the college make eager plans for this series of concerts, but the public at large has come to look upon this course as its chief point of contact locally with the leaders in the tonal art.

This series, which announces four attractions for the present season, was opened Monday evening by the eminent pianist, Jan Chlapusko.

The press notices and other publicity given to Mr. Chlapusko previous to his appearance here, had keyed his audience to a high pitch of expectancy, and of those prepared to expect much, surely no one left the hall with his hope unfulfilled.

From the moment that the program opened with the Brahms waltzes, played with the accent of military precision, to the last note of the Tannhauser Overture the audience was wholly with and under the spell of Mr. Chlapusko's wonderful fingers. His playing is so free from mannerisms that the hearer's attention is never divided between the messages and its bearer. The fingers stick so close to the keyboard that they seem part of it, and the softest tones of the swiftest run are crystalline in clearness.

It was a happy thought to bring the Arensky Etude and the Albeniz Triana into juxtaposition

so charmingly did one offset the other. The audience was not to be put aside with the printed program and two numbers were added, namely, The Spinning Song, by Mendelssohn, and a paraphrase of Strauss' "Blue Danube Waltzes," by Schultz-Eveler. This initial number of this concert series promises well for it is said that all are the equal of the first, the indifferent lines, and surely the public can ask no more than was offered in this number.

AUTOS SHOULD STOP AT R. R. CROSSINGS

Head of Traction System Advocates Legislation Compelling Observance of Such a Rule

SPRINGFIELD. (By the A. P.)—Legislation compelling every automobile driver to come to a full stop before crossing important railroad crossings, is advo-

cated here by C. F. Handshy, general manager of the Illinois Traction System. "The average motorist never stops at a crossing but rushes over, sometimes even when the crossing bell is sounding the warning," Mr. Handshy said. "A law compelling them to stop at these places would reduce accidents of this nature to a minimum. As a rule the automobile driver is averse to stopping his car at a crossing, because he may lose

two minutes time. However, our trains stop at all steam railroad crossings, and the conductors 'flag' the crossing before giving our engineer the signal to proceed. This delays 60 or 70 passengers but we believe safety comes first. There is no good reason why a passenger automobile, carrying two or three passengers should fail to heed these moral laws."

Equipment Purchases

In conjunction with safety rule advocacy Mr. Handshy announced the purchase of additional passenger equipment for the Illinois Traction System, and the introduction of one man interurban cars on the Illinois Valley Division.

The purchase included six, 80-ton electric locomotives, each with eight motors generating 600 horse power, Mr. Handshy said. The locomotives will cost \$45,000 each, making a total of \$270,000 and will be built in the Decatur shops of the company. An appropriation has also been made for 200 box cars and 200 coal cars for freight service.

Mr. Handshy also announced that he and the electrical engineers of the road had made a tour of Illinois railroads investigating new types of railroad crossings signals. A new type of crossing signal is to be installed by the Traction System, he said, but the type has not yet been decided.

FACTS

According to records in the Secretary of State's office, Studebaker outsold all other makes of cars in the first six months of 1923 in Wayne County, Michigan (of which Detroit is the county seat) with the exception of Ford and Chevrolet.

Detroit knows motor cars and motor car values, because the majority of the population is engaged directly or indirectly in some phase of the motor car industry.

Detroit knows Studebaker because of the large production of Studebaker cars in that city, and Detroit is partial to Studebaker cars for just one reason—the merit of the product.

mental irritability. Many suffering from acid-dyspepsia, insomnia and nervousness secure complete relief after giving up tea and coffee.

The fact that coffee, in doses sufficient to produce any stimulating effect, raises blood pressure and stimulates the action of the kidneys is also good reason for using it with caution in these days of arterial strain and tendency to kidney affection. In these days drugs that act on the kidneys are used by physicians with great caution. Instead of spurring the kidney with drugs its work is regulated by proper diet, water intake, etc.

LATEST NEWS OF THE SPORTING WORLD

Yankees Win Highest Honors in Baseball

(By the Associated Press)

NEW YORK, Oct. 15.—Beat-en, crushed after one of the most spectacular world's series fights in history, the New York Giants today surrendered to the Yankees, the world's championship banner they have flown for the last two years. And tonight, with this record-shattering million dollar title battle at an end, the emblem of supremacy flutters atop the Yankee stadium, greatest and costliest monument of the diamond.

The Yankees won the sixth and final game today at the Polo Grounds, fair of the Giants, by coming from behind and scoring five runs in a dramatic, pulse gripping eighth inning rally just when it seemed that the McGrawmen, fighting desperately with their backs to the wall, would tie the series and force a seventh contest to decide the struggle. The final score was 6 to 4.

Thus the American League champions swept to their third successive triumph, completed the rout of the once proud and mighty Giant machine and, by the decisive margin of four games to two, gained their first world's series title in more than two decades of embattled history. Thus, too, was written into the annals of the national game a struggle for the highest stakes it has ever known, a gigantic spectacle eclipsing all previous records, that was witnessed by more than 300,000 fans who paid more than \$1,063,000 in gate receipts.

The story of that eighth inning today, coming when it appeared that the deadly southpaw arm of Arthur Nehf and the inspired play of Frank Frisch had checked the heading rush of the Yankees, will go down as one of the most startlingly decisive championship turns of all time.

That brief thrilling, yet tragic span witnessed with amazing suddenness the ascendancy of the Yankees to the pinnacle of their career and, simultaneously, the utter collapse of the Giants, the crushed hopes of John McGraw for three successive world's titles—a debacle so stunning that tonight it seems to have marked the passing for all time from championship heights of the Giant machine as it emerged, broken, from the test.

It witnessed, too, the failure of the game's idol of idols to answer a call to fame that would have raised him to heights greater than any he has ever touched. For Babe Ruth, star of stars, the mightiest hitter ever, while he had started the Yankees off in the first inning with his third home run of the series, fell down miserably in the eighth inning pinch, striking out with the bases full and the Yankees yet one run behind.

In his place a new hero was lifted up, Bob Meusel, who stepped into the breach that the Babe had left and delivered the blow that resulted in three runs and clinched the Yankee triumph.

For seven innings, Nehf, hero

Fullback Plunge Is Hard Play to Stop if Properly Executed

Pipp ended the rally by going out, Frisch to Kelly, but the damage had been done and the Giant cause sent down to defeat.

Sam Jones, Nehf's victim in the third game, took Pennock's place and held the Giants in check in the last two innings, the nearest to a rally coming in the eighth when Young singled, only to be forced out by Irish Meusel. Beaten and hopeless they went out in order in the ninth.

Looming alongside the tragic figure of Nehf in the Giant disaster was that of Frisch, the "Fordham Flash," who stood out as the brightest all-round star of the game. It was Frisch whose remarkable fielding in the first seven innings cut off at least two Yankee hits and seemed to put fresh hopes into the breast of McGraw and his men. It was Frisch whose terrific hitting figured in three of the four Giant runs.

The Giant second sacker made one of the most brilliant defensive plays of the entire series in the fourth when he caught Dugan's looping fly in short right field over his shoulder and while running at top speed. He was close to the foul line when he made the catch. Again in the fifth he raced toward second to make a marvelous stop of Schang's hot grounder and an equally brilliant throw that Kelly stabbed with one hand.

The advantage Ruth's homer into the upper right field stand had given the Yankees in the first inning was nullified by three successive hits by Groh, Frisch and Young in the Giant half of the inning, the third sacker carrying the run across.

A brilliant throw from center by Whitey Witt, however, on Young's hit, cut down Frisch by a narrow margin at third base and possibly checked further scoring, the Irish Meusel fanned to end the inning.

Frisch opened the fourth by beating out a pretty bunt down the first base line that caught the Yankee infield flat footed. He advanced on Young's infield out and scored on Cunningham's single to right.

Snyder's homer into the upper left field stand gave the Giants their third run in the fifth inning and Frisch paved the way for the fourth tally in the sixth inning with a booming triple to left center. Frisch crossed the plate on Meusel's single but Cunningham and Kelly were easy victims for Pennock.

Altogether the Giants made ten hits, nine off Pennock and one off Jones, twice as many as Nehf and Ryan allowed. Pennock was far from the brilliance he showed in winning the second game, but he received credit for his second victory because the Giant twirlers could not weather the storm.

In the final analysis it was the utter failure of the Giant pitchers that cost the world's champions their crown; that, plus the fact that the Yankees on the other hand, supported steady and at times brilliant pitching with an intonable, remorseless attack. Outside of Nehf, who alone of the Giant regulars was able to last a full game, McGraw had no sharpshooters upon whom to rely. And when Nehf went the way of the others, at last, it marked a swift and convincing end.

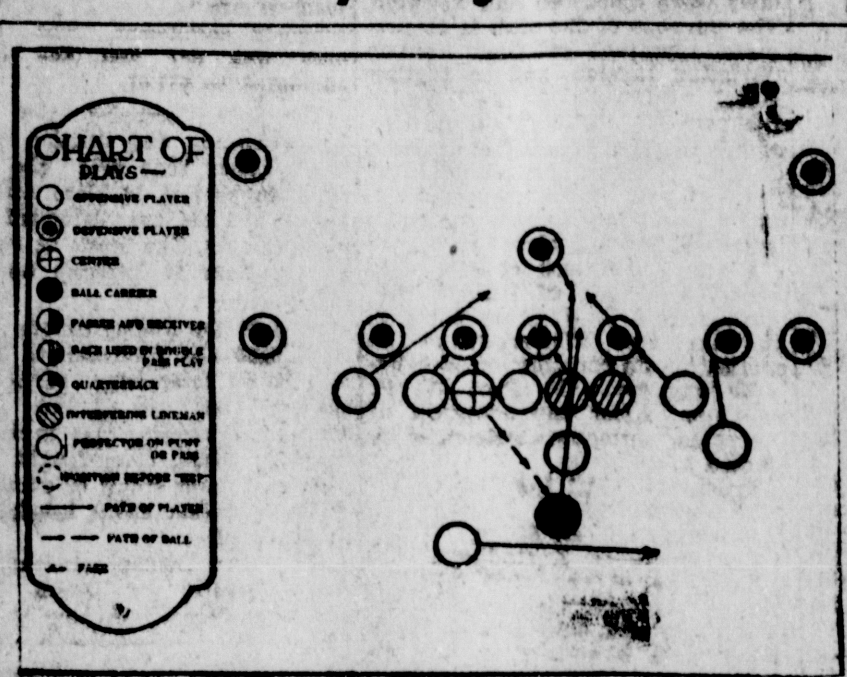

The Yankees, over the stretch of six games, outplayed their rivals in every department of the game, save possibly defense, and here there was little to choose with "Jumping Joe" Dugan of the new champions and Frisch of the Giants as the outstanding heroes. Speed, punch and pitching—the fundamentals—all were preponderantly on the side of the Yankees.

The Yankee speed was not alone of foot and hand, but of brain, and therein Huggins brought about the discomfiture of his rival McGraw, the supposedly master tactician, the "Master Mind," whose battle with "brute force" seemed at the start to be the most dramatic feature of the series.

"Brute force" as typified by Ruth was triumphant but because it applied with that quality the other winning requisites.

Casey Stengel, whose spectacular home runs gave the Giants the winning margin in their only triumphs, stands out as hero of the fallen world's champions. Perhaps the score of the world's series of 1923 might be best written:

Yankees, four victories; Stengel, two.

BY ROBERT C. ZUPPKE
Football Coach, University of Illinois, Author of "Football Technique and Tactics"

The leading back drives ahead through the opening for the secondary. The quarterback takes out wide, or may run straight back with his hands in the air, to momentarily draw the attention of the defense.

The pass from center should be a "floater," knee high to hold the fullback down, and directly in front of him. The fullback at the snap of the ball plunges low and hard toward the hole, takes the ball out of the air and crashes into the opening in the quickest possible time.

In all straight plays it is necessary to reach the line of scrimmage quickly, before opponents can recover and close the hole.

The fullback must carry the ball in two hands and hit the line with increasing speed, so that weak attempts at tackling are thrown off.

Some fullbacks have the knack of changing direction either in or out, just as they hit the line, without slacking up their speed. This is an added advantage because the correct hole may not have opened, or after several attempts the opponents successfully block the straight smash, but leave an opening to the right or left.

Next comes Play No. 4, a hidden ball play.

ZUPPKE PREPARING FOR GO WITH IOWA

URBANA, Ill., Oct. 15.—Unless some accident in practice this week intervenes, Coach Bob Zuppke, will have his full strength in the field for the first game of his big ten schedule at Iowa Saturday.

"Swede" Hall, regular quarter, Melvaine, regular halfback and Gil Roberts and Vivian Green, who are expected to divide duties at center, were all out for practice tonight, the first time the squad has been at full strength since before the Nebraska game.

Hall and Melvaine were kept on the bench during the Butler game, and Roberts and Green have been out with injuries since the opening of the season. There was no scrimmage today, the afternoon being spent on signal drill and study of Iowa plays and tactics.

WINCHESTER LOSER IN SUNDAY'S GAME

The Jacksonville Indians again showed that they know their groceries, by annexing the first of a three game series Sunday in Winchester against the American Legion team of that place.

Howard Fryman showed his stuff on the mound for Jacksonville.

CHICAGO CITY SERIES FEATURED BY HOMERS

White Sox Defeated Cubs 7 to 4 In Fifth Game—Willie Kamm Came Thru With Two Circuit Drives.

CUBS PARK, Chicago, Oct. 15.—(By The Associated Press)—A five run attack in the fourth inning put the White Sox out in front with a lead that never was threatened and the Americans won the fifth game of the Chicago City Series from the National League 7 to 4.

Home runs featured the contest. Willie Kamm, \$100,000 beauty purchased by the Sox last spring from San Francisco hit two four baggers while Eddie Collins hit one. Friberg and Vogel hit for circuit drives for the Cubs.

Charley Robertson pitched the route for the Sox and always had a good lead. Four pitchers toiled for the National League line. Aldridge, Fussell, Osborne and Dumovich pitched in order.

Friberg's home run put the Cubs out in front in the second inning. But the Sox didn't enjoy their advantage long.

In the fourth Hooper walked and Collins hit a homer into the right field bleachers. Sheely walked and Falk singled, and then Kamm shot a homer into the left field bleachers. Aldridge was yanked, Fussell taking his place and halting the attack.

Home runs continued to float into the bleacher crowd in the Sox fifth. Mostil singled and Kamm snapped out his second four bag hit, a drive which settled in the top row of bleacher seats in left field. That gave the American Leaguers a six run margin.

A spell of wildness overtook Robertson in the seventh, when the Cubs scored their second run. A single by Adams, Sheely error on Grantham's grounder, a wild pitch and Friberg's sacrifice fly sent the tally over.

O'Farrell doubled to open the Cub eighth and Vogel pecked a homer into the left field bleachers.

The series will be resumed tomorrow at the American League Park. The Sox need one more victory to win the City title.

Total paid attendance 16,562. Receipts \$18,061.92. Commission's share \$2,469.29. Each Club's share \$6,826.31.

RESERVE SEAT SALE FOR CLUB DRAMA ON

Many Tickets Sold for "Androcles and the Lion"—Reservations May be Made Today.

The reserve seat sale for the presentation of Bernard Shaw's "Androcles and the Lion" will begin this morning at nine o'clock at Coover's Drug Store. The general seat sale has been progressing rapidly for the past few days. There will be additional charge for seat reservations at the time they are made.

Those looking forward to the coming of the Coover-Miller Players in the keen-edged Shaw comedy, from all advance reports on the company, are not to be disappointed.

The play, meaty with G. B. S.'s barbed wit, and full of his satirical philosophy is splendidly handled by the company of players, headed by Jesse Coffey, and directed by Martha Miller. Many who have heard these fine players say that the lines are given with zest and fine diction, so that not bit of the flavor of the comedy is lost.

The meek benign little Androcles is finely portrayed by Jesse Coffey.

Some fine stage settings will be used during the presentation of the play, and these together with the carefully detailed costuming make the whole offering one of unusual appeal.

WALLACE ORCHARDS

RETURNS FROM OKLAHOMA

F. L. Sharpe has returned from a recent trip to Oklahoma and says a hot wave extending nearly across the state east and west from Wichita to Guthrie, Oklahoma had recently swept almost everything green before it. Corn was maturing about the size of wheat and there was general devastation of crops and pastures. Asked why more had not been heard from it he said that oil was the all-absorbing enterprise down there. Thousands of wells are capped waiting for an increase in price before pouring forth their almost inexhaustible supply of the valuable fluid while much promising territory had not been yet explored.

ILLINOIS COLLEGE NOTES

In the Cambridge History of English Literature, one of the foremost publications on English literature, reference is made to Professor J. G. Ames' book on "The English Literature Periodical of Morals and Manners," published in 1904. Professor Ames' book has been very widely read and is on file in the American Library in Paris, France, in the New York Public Library and many other libraries throughout the country.

A Santa Barbara, California, paper was received recently by the friends of Mr. and Mrs. Florence L. Kellogg, giving an account of their golden wedding anniversary. Mr. Kellogg was an alumnus of the class of '73, Mrs. Kellogg being a graduate of the Jacksonville Female Academy.

The following are the religious statistics of the college for this year. These statistics do not include the Conservatory students: Methodist 95; Presbyterian 68; Christian 56; Congregational 35; Baptist 33; Catholic 15; Episcopal 9; Lutheran 6; Brethren 3; Evangelical 2; Christian Science 1; Dutch Reformed 1; Union 1; no preference 3.

These statistics of the religious preferences of Illinois College students show that now as throughout its history, the college draws its patronage from all of the important denominations.

Two Illinois College men are teaching in high schools in Porto Rico this year—Lloyd Cully '22 at Ponca, Porto Rico, and Henry Smith '21 at Arco, Porto Rico. Glen Weyer '22 is taking post graduate work for his master's degree at Harvard this year. His address is 15 Wendell Street, Cambridge, Massachusetts.

Otto Spieth, the local photographer took a picture of the student body on Monday morning.

Dr. Murdock McLeod, who spoke at the chapel services last Friday morning came to the College as a representative of the Presbyterian Board of Christian Education. He represents that Board in the preliminary plans now under way for the great \$3,000,000 campaign for Presbyterian educational interests in the state of Illinois. The share of Illinois College in this fund will be about \$500,000.

An innovation will be tried at the chapel services Wednesday morning, when, under the leadership of Professor Hedge of the Conservatory, the students will have a community sing.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c
